India’s EOVs on First Committee resolutions

on October 30 2008

Cluster 4: Conventional Weapons

Resolution contained in L56: Convention on the Cluster Munitions

India was not a participant in the Dublin Diplomatic Conference for the adoption of a Convention on Cluster Munitions. Therefore, the consideration of this resolution by this Committee cannot be construed as endorsement of the outcome of that Conference.

India supports further consideration of this issue by the GGE as part of the CCW process, in accordance with its mandate on striking a balance between military necessity and humanitarian considerations.
