Statement by

H.E. Ms. Ina H. Krisnamurthi
Deputy Permanent Representative of the Republic of Indonesia

on behalf of the Non-Aligned Movement

at

The General Debate of the First Committee
of the 73rd Session of the United Nations General Assembly

New York, 8 October 2018
Mr. Chairman,

1. I have the honor to speak on behalf of the Non-Aligned Movement. I would like to congratulate you and other Bureau members on your election, and assure you of our full cooperation.

2. NAM reiterates its positions on the entire range of disarmament and international security issues as contained in the final document of the 18th Mid-term Ministerial Meeting of the Non-Aligned Movement, held in Baku, Azerbaijan, in April 2018. In this context, I would like to highlight the Movement’s views on some important issues.

Mr. Chairman,

3. The Movement reaffirms its principled positions on nuclear disarmament, which remains the agreed highest priority for the UN in the area of disarmament in accordance with the Final Document of SSOD-I. The Movement remains extremely concerned at the threat to humanity posed by the continued existence of nuclear weapons and of their possible use or threat of use. The situation in the realm of nuclear disarmament continues to be characterized by an alarming impasse. The Nuclear Weapon States have not made progress in eliminating their nuclear weapons. The role of nuclear weapons in security policies of the nuclear-weapon-States has not diminished. Nuclear weapons States are modernizing their nuclear arsenals and planning research on new nuclear warheads, or have announced their intention to develop new delivery vehicles for nuclear weapons, as provided for in the military doctrines of some NWS, including the United States Nuclear Posture Review. The Movement is deeply concerned by this dismal state of affairs as a result of non-compliance by NWS with their legal obligations and unequivocal undertakings.

4. The international community has waited too long for the realization of the goal of the total elimination of nuclear weapons and the launching of negotiations on effective
measures relating to cessation of the nuclear arms race at an early date and to nuclear disarmament. It has become obvious that the existing approach adopted by nuclear weapon States, the so-called step-by-step approach, has failed to make concrete and systematic progress towards the total elimination of nuclear weapons. [Despite the tangible and indisputable positive developments on nuclear non-proliferation in the past decades, forward movement on nuclear disarmament continues to be held hostage to misguided notions, including strategic stability.] It is time to take a new and comprehensive approach on nuclear disarmament.

5. NAM reiterates that the convening of the United Nations High-level International Conference on Nuclear Disarmament as decided through the General Assembly resolutions, would provide an important opportunity to review progress made in nuclear disarmament and to further promote this noble objective.

6. The Movement welcomes the multilateral efforts towards nuclear disarmament and the total elimination of nuclear weapons. Moreover, the Movement takes note of the adoption of the Treaty on the Prohibition of Nuclear Weapons on 7 July 2017 at the United Nations conference to negotiate a legally binding instrument to prohibit nuclear weapons, leading towards their total elimination. It is hoped that, when entered into force, the Treaty would contribute to furthering the objective of the total elimination of nuclear weapons.

7. NAM stresses the importance of enhancing public awareness about the threat posed to humanity by nuclear weapons and the necessity for their total elimination, including through the observance of 26 September as the International Day for the Total Elimination of Nuclear Weapons.

8. NAM reiterates its deep concern over the greatest threat to peace and security posed by the continued existence of nuclear weapons and those military doctrines of the nuclear-weapon-States and NATO that set out rationales for the use or threat of use of such weapons against non-nuclear-weapon-States. Such doctrines cannot be justified on any grounds.
9. NAM once again renews its strong call upon the nuclear-weapon States to fully and urgently comply with their legal obligations and unequivocal undertakings to accomplish the total elimination of their nuclear weapons without further delay, in a transparent, irreversible and internationally verifiable manner.

10. The Movement also calls on the nuclear weapon States to immediately cease their plans to further modernize, upgrade, refurbish, or extend the lives of their nuclear weapons and related facilities.

11. NAM reaffirms the urgent need for conclusion of a universal, unconditional, non-discriminatory and legally binding instrument to effectively assure all non-nuclear-weapon States against the use or threat of use of nuclear weapons under any circumstances as a matter of high priority, pending the achievement of the total elimination of nuclear weapons in an irreversible, transparent, and verifiable manner, which remains the only absolute guarantee against their use or threat of use. NAM expresses concern that despite this long-standing request by non-nuclear-weapon States to receive such legally binding assurances no tangible progress has been achieved.

12. NAM also reaffirms that the total elimination of nuclear weapons and the assurance that they will never be produced again, is the only absolute guarantee against the catastrophic humanitarian consequences arising from their use.

13. Furthermore, NAM calls upon the Nuclear Weapon States to reduce immediately the operational status of nuclear weapons, including through complete de-targeting and de-alerting in order to avoid the risks of unintentional or accidental use of such weapons.

Mr. Chairman,

14. [The Movement reaffirms its principled positions on non-proliferation of nuclear weapons in all its aspects.] NAM
believes that nuclear disarmament and nuclear non-proliferation are mutually reinforcing and are essential for strengthening international peace and security. Non-proliferation derives its legitimacy from the larger objective of nuclear disarmament. Pursuing non-proliferation alone while ignoring nuclear disarmament obligations is both counterproductive and unsustainable. NAM emphasizes that proliferation concerns are best addressed through multilaterally negotiated, universal, comprehensive and non-discriminatory agreements.

15. NAM States Parties to the NPT regret the failure of the 9th NPT Review Conference to reach consensus on a final outcome document despite the efforts made by NAM delegations, and calls upon the NWS to demonstrate political will to enable the 2020 Review Conference of the NPT to have concrete recommendations towards achieving nuclear disarmament, the ultimate objective of the NPT.

16. Recalling the opposition expressed by the US, UK and Canada at the concluding session of the 2015 NPT Review Conference, NAM States Parties to the NPT express their disappointment that as the result of such opposition, consensus on new measures regarding the process to establish a Middle East Zone free of Nuclear Weapons and all other Weapons of Mass Destruction was not achieved. This could undermine efforts towards strengthening NPT regime as a whole. NAM reemphasizes the special responsibility of the co-sponsor States of the 1995 resolution on the Middle East in implementation of that resolution. NAM is concerned that the persistent lack of implementation of the 1995 Resolution, contrary to the decisions made at the relevant NPT Review Conferences undermine the effectiveness and credibility of the NPT and disrupts the delicate balance between its three pillars, taking into account that the indefinite extension of the Treaty agreed at the 1995 Review Conference is inextricably linked to the implementation of the 1995 Resolution on the Middle East.

Mr. Chairman,

17. NAM is of the firm belief that non-proliferation policies should
not undermine the inalienable right of States to acquire, have access to, import or export nuclear material, equipment and technology for peaceful purposes.

18. NAM reaffirms the inalienable right of each State to develop research, production and use of nuclear energy, including the sovereign right to develop full national nuclear fuel cycle, for peaceful purposes without discrimination. The Movement once again reaffirms the sovereign right of each State to define its national energy policies. NAM stresses that any decision on multilateral approaches to the nuclear fuel cycle shall be made by consensus and without prejudice to the inalienable right of each State to develop a full national nuclear fuel cycle.

19. NAM recalls the successful conclusion of nuclear negotiations between the Islamic Republic of Iran and E3/EU+3, resulting in the finalization of the Joint Comprehensive Plan of Action (JCPOA) on 14 July 2015. NAM underlines that this agreement showed once again that dialogue and diplomacy are the most appropriate means to resolve such issues, as the Movement has always been advocating.

20. NAM strongly rejects, and calls for the immediate removal of any limitations and restrictions on exports to developing countries of nuclear material, equipment and technology for peaceful purposes, consistent with the provisions of relevant multilateral treaties. In this regard, NAM stresses that the technical cooperation and assistance provided by the IAEA in meeting the needs of its Member States for material, equipment and technology for peaceful uses of nuclear energy shall not be subject to any conditions incompatible with its Statute.

21. NAM once again reaffirms the inviolability of peaceful nuclear activities and that any attack or threat of attack, including using information and communication technologies, against peaceful nuclear facilities – operational or under construction – poses a great danger to human beings and the environment,
and constitutes a grave violation of principles of the UN Charter, international law, and the resolutions of the IAEA General Conference.

22. NAM recognizes that the primary responsibility for nuclear safety and nuclear security rests with individual states. The Movement further recognizes that the responsibility for nuclear security within a State rests entirely with that State. Any multilateral norms, guidelines or rules in nuclear security should be pursued within the framework of the IAEA. The Movement emphasizes that measures and initiatives aimed at strengthening nuclear safety and nuclear security must not be used as a pretext or leverage to violate, deny or restrict the inalienable right of developing countries to develop research, production and use of nuclear energy for peaceful purposes without discrimination.

Mr. Chairman,

23. NAM believes that the Nuclear-Weapon-Free zones (NWFZs) established by the treaties of Tlatelolco, Rarotonga, Bangkok, Pelindaba, the Central Asian Nuclear-Weapon-Free Zone treaty as well as Mongolia’s Nuclear-Weapon-Fee-Status are positive steps and important measures towards strengthening global nuclear disarmament and nuclear non-proliferation. In the context of NWFZs, it is essential that nuclear-weapon States provide unconditional assurances against the use or threat of use of nuclear weapons to all States of the zone under any circumstances. NAM calls upon all nuclear-weapon States to ratify related protocols to all treaties establishing nuclear-weapon-free zones, withdraw any reservations or interpretative declarations incompatible with their object and purpose, and respect the denuclearization status of these zones.

24. NAM strongly supports the establishment of a zone free of nuclear weapons and all other weapons of mass destruction in the Middle East. As a priority step to this end, NAM reaffirmed the need for the speedy establishment of a NWFZ in the Middle East in accordance with the Security Council Resolution 487 (1981) and paragraph 14 of the Security Council Resolution 687 (1991) and the relevant General Assembly resolutions adopted
by consensus. NAM reaffirms the urgent need for convening of a conference of all States of the region under the auspices of the United Nations to negotiate a legally-binding treaty on the establishment of a NWFZ in the Middle East. Pending its establishment, NAM demands that Israel, the only in the region that has not joined the NPT nor declared its intention to do so, renounce any possession of nuclear weapons, accede to the NPT without any precondition or further delay, and place promptly all its nuclear facilities under IAEA full-scope safeguards. NAM expresses great concern over the acquisition of nuclear capability by Israel, which poses a serious and continuing threat to the security of neighboring and other States, and condemns Israel for continuing to develop and stockpile nuclear arsenals. The Movement also calls for the total and complete prohibition of the transfer of all nuclear-related equipment, information, material and facilities, resources or devices and the extension of assistance in the nuclear related scientific or technological fields to Israel.

25. NAM States Parties to the NPT reiterate their serious concern over the two decades delay in the implementation of the 1995 Resolution on the Middle East and urge the cosponsors of the Resolution to take all necessary measures to fully implement it without any further delay.

26. NAM State Parties to the NPT reiterate their profound disappointment that the 2010 action plan on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction has not been implemented. They strongly reject the alleged impediments for not implementing the 2010 Action plan on the Middle East and the 1995 Resolution on the Middle East. This runs contrary to the letter and spirit of the 1995 Resolution, which constitutes the original terms of reference of establishing this zone. It also violates the collective agreement reached at the 2010 NPT Review Conference.

27. NAM also stresses the significance of achieving universal adherence to the Comprehensive Nuclear-Test-Ban Treaty, including by all nuclear-weapon States, which, inter alia,
should contribute to the process of nuclear disarmament. [The Movement reiterates that if the objectives of the Treaty were to be fully realized, the continued commitment of all States signatories, especially the NWS, to nuclear disarmament would be essential.]

Mr. Chairman,

28. NAM States Parties to the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons (CWC) note with satisfaction the effective operation of the CWC as the only comprehensive multilateral treaty banning an entire category of WMD, providing for a verification system and promoting the use of chemicals for peaceful purposes. They urge United States, as the only remaining State Party, to take every necessary measure to ensure their compliance with their "Detailed plan for the destruction of Chemical Weapons remaining after the final extended destruction deadline of 29 April 2012", in the shortest time possible, in order to uphold the credibility and integrity of the Convention. They call for the promotion of international cooperation in the field of chemical activities for purposes not prohibited under the Convention without any discrimination and restriction. In this regard, they attach high importance to the adoption of a Plan of Action on Article XI on economic and technological development for the full, effective and non-discriminatory implementation of all the provisions of Article XI.

29. [With regard to the future priorities of the Organisation.] the NAM CWC States Parties believe that the discussions need to be brought within the parameters of the policy-making organs (PMOs) guided and driven by States Parties and the main focus of the Organisation should remain the complete elimination of all categories of chemical weapons, with a strong belief that all pillars of the Convention would be treated in a balanced manner.

30. NAM State Parties to the Biological Weapons Convention (BWC) considers that the Convention represents an important component of the international legal architecture related to
WMD. They recognize that the lack of a verification system continues to pose a challenge to the effectiveness of the Convention. They call for the resumption of the multilateral negotiations to conclude a non-discriminatory legally binding Protocol, dealing with all Articles of the Convention, in a balanced and comprehensive manner to sustainably strengthen the Convention, including through verification measures. They urge the party rejecting negotiations to reconsider its policy. They further emphasize the need for enhancing, without restrictions, international cooperation and assistance and exchanges in toxins, biological agents, equipment and technology for peaceful purposes without any discrimination, in conformity with the Convention.

31. In the context of UN Security Council resolutions 1540 (2004) and its subsequent resolutions, NAM underlines the need to ensure that any action by the Security Council does not undermine the UN Charter, existing multilateral treaties on weapons of mass destruction, and international Organizations established in this regard, as well as the functions and power and role of the General Assembly. NAM cautions against the continuing practice of the Security Council to utilize its authority to define the legislative requirements for Member States in implementing its decisions. [In this regard, NAM stresses that the issue of acquisition of weapons of mass destruction by non-State actors should be addressed in an inclusive nondiscriminatory manner by the General Assembly, taking into account the views of all Member States]. The Movement also underlines that the total elimination of all weapons of mass destruction represents an important guarantee that such weapons will not be acquired by non-State actors.

32. The Movement reaffirms the need to prevent the emergence of new types of weapons of mass destruction and therefore supports the necessity of monitoring the situation and triggering international action as required. In this regard, the Movement welcomes the adoption of the General Assembly Resolution 72/23 entitled “Prohibition of the development and manufacture of new types of weapons of mass destruction and new systems of such weapons: report of the Conference on Disarmament”.

10
33. NAM continues to affirm the sovereign right of States to acquire, manufacture, export, import and retain conventional arms and relevant parts, components, and ammunition for their self-defense and security needs. NAM expresses its concern about unilateral coercive measures in this area, and emphasizes that no undue restriction should be placed on the transfer of such arms.

34. NAM remains deeply concerned over a wide range of security, humanitarian and socio-economic consequences arising from the illicit manufacture, transfer, and circulation of small arms and light weapons (SALW). NAM calls on all states, in particular major producing States, to ensure that the supply of SALW is limited only to governments or to entities duly authorized by them. NAM also underlines the need for a balanced, full and effective implementation of the Program of Action and the International Tracing Instrument, and in this regard, stresses the urgent need to intensify efforts to promote international cooperation and assistance.

35. NAM stresses the importance of the reduction of military expenditures by major arms producing countries, in accordance with the principle of undiminished security at the lowest level of armaments, and urges those countries to devote these resources to global economic and social development, in particular in the fight against poverty.

36. NAM continues to be concerned over the negative implications of the development and deployment of anti-ballistic missile (ABM) defense systems and the threat of weaponization of outer space which have, inter alia, contributed to the further erosion of an international climate conducive to the strengthening of international security. The abrogation of the ABM Treaty brought new challenges to international peace and stability and the prevention of an arms race in outer space. NAM remains seriously concerned at the negative security consequences of the deployment of strategic missile defence systems which could trigger an arms race(s) and lead to the further development of advanced missile systems and an increase in the number of
nuclear weapons.

37. NAM recognizes the common interest of all humankind and the inalienable, legitimate sovereign rights of all States in the exploration and use of outer space for exclusively peaceful purposes, and reconfirms their stand to oppose and reject any act denying or violating it and emphasizes that prevention of an arms race in outer space, including a ban to deploy or use weapons therein, would avert a grave danger for international peace and security. NAM further emphasizes the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space. NAM also reemphasizes the urgent need for the commencement of substantive work in the CD, inter alia, on the prevention of an arms race in outer space, taking note of the joint Russian-Chinese initiative of a draft treaty on the “Prevention of the Placement of Weapons in Outer Space, the Threat or Use of Force Against Outer Space Objects” (PPWT) presented in the Conference on Disarmament on 12 February 2008 and in 2014. NAM notes that this initiative is a constructive contribution to the work of the Conference, and is a good basis for further discussion toward adopting an international legally-binding instrument. In this context, NAM notes the adoption of General Assembly resolution 72/27 on no first emplacement of weapons in outer space with a view to ensuring its exclusive peaceful use. NAM also welcomes the adoption of General Assembly resolution 72/250 on “Further practical measures for the prevention of an arms race in outer space”, which calls for the establishment of a United Nations Group of Governmental Experts to consider and make recommendations on substantial elements of an international legally binding instrument on the prevention of an arms race in outer space, including, inter alia, on the prevention of the placement of weapons in outer space. NAM further urges all Member States, in particular those with major space capabilities, to contribute actively to the goal of preventing an arms race in outer space as an essential condition for the promotion of international cooperation in the exploration and use of outer space for peaceful purposes. [NAM calls for the promotion and
strengthening of international cooperation in the exploration and use of outer space for peaceful purposes.

38. NAM continues to reaffirm the need for a universal, comprehensive, and non-discriminatory multilateral approach toward the issue of missiles in all its aspects, negotiated multilaterally within the UN. Any initiative on this subject should take into account the security concerns of all States and their inherent right to peaceful uses of space technologies.

39. As the use of information and communication technologies has the potential to endanger international peace and security, countering such emerging security challenges and reducing their risk is essential. [Development of a legal framework to address these issues should be pursued within the UN with the active and equal participation of all States.]

40. The Movement highlights the important socio-economic opportunities, in particular for developing countries, provided by information and communication technologies, and underscores the need to prevent all discriminatory practices and policies that hinder access by developing countries to the benefits of information and communication technologies. NAM notes with concern cases of the illegal use of new Information and Communications Technologies, including social networks, to the detriment of Member States of the Movement, and expresses its strongest rejection of those violations.

41. The Movement stresses the importance of ensuring that the use of such technologies is fully in accordance with the purposes and principles of the Charter of the United Nations, International Law and, especially, the principles of sovereignty, non-interference in the internal affairs and internationally-known rules of peaceful coexistence among States.

42. NAM calls for transparency and strict application of the principle of equitable geographical representation, including, in particular in the composition of the Groups of Governmental Experts
established in the field of disarmament and international security. The movement also underlines the importance of transparency and openness of the work of such groups.

43. NAM stresses the central role of the UN on developments in the field of information and telecommunications in the context of international security, and emphasizes the necessity to continue the discussion at the United Nations in order to ensure transparent and inclusive participation of all UN Member States on an equal footing, including to consider the establishment of an Open-Ended Working Group of the General Assembly.

44. Expressing its deep concern on the continued lack of adequate representation from NAM countries in United Nations Office for Disarmament Affairs (UNODA), the movement requests the Secretary General and High Representative to undertake steps to ensure balanced and equitable representation in that office.

45. NAM is of the view that Lethal Autonomous Weapon Systems (LAWS) raise a number of ethical, legal, moral and technical, as well as international peace and security related questions which should be thoroughly deliberated and examined in the context of conformity to international law including international humanitarian law and international human rights law. NAM States Parties to CCW support the establishment of an open-ended Group of Governmental Experts (GGE) related to emerging technologies in the area of Lethal Autonomous Weapons Systems in the context of the objectives and purposes of the Convention.

46. NAM remains concerned at the continuous erosion of multilateralism in the field of disarmament, non-proliferation, and arms control. The Movement is determined to continue promoting multilateralism as the core principle of negotiations in these areas and as the only sustainable approach to address these issues, in accordance with the UN Charter.

47. NAM reaffirms the importance of the Conference on Disarmament (CD) as the sole multilateral negotiating body on disarmament, and reiterates its call on the CD to agree by
consensus on a balanced and comprehensive program of work without any further delay taking into account the security interests of all States. In this regard, the movement reaffirms the importance of the principle contained in the final document of the SSOD-I that “The adoption of disarmament measures should take place in such an equitable and balanced manner as to ensure the right of each State to security and to ensure that no individual State or group of States may obtain advantages over others at any stage”. NAM strongly rejects any politicization of the work of the CD and calls upon all member states to fully respect its rules of procedures and agreed methods of work.

48. Enhancing the effectiveness of UN disarmament machinery is a shared objective. Based on its existing rules of procedure and methods of work, this machinery has produced landmark treaties and guidelines. NAM believes that the main difficulty lies in the lack of political will by some States to achieve progress, particularly on nuclear disarmament.

49. NAM reaffirms the importance and relevance of the UNDC, with universal membership, as the sole specialized and deliberative body within the UN multilateral disarmament machinery, to consider various problems in the field of disarmament and submit concrete recommendations to the General Assembly. NAM calls upon all Member States to achieve a consensus in the Working Group of the UNDC entitled “Recommendations for achieving the objective of nuclear disarmament and non-proliferation of nuclear weapons”.

50. The Group welcomes the efforts made by the CD Presidents from NAM member states towards resumption of the CD’s substantive work in 2018. NAM takes note of the deliberations and discussions on substantive issues that were held during CD’s 2018 session. While welcoming the efforts made during the 2018 session of the Conference on Disarmament on its programme of work, the Movement encourages all CD member states to demonstrate the necessary political will so that the CD fulfills its negotiating mandate.

51. For its part, NAM stands ready to engage constructively on the
advancement of the issues on the UN disarmament agenda and the ways and means of strengthening the disarmament machinery. NAM underscores the importance of convening the Fourth Special Session of the General Assembly devoted to Disarmament, as it would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the disarmament process, and to mobilize the international community and public opinion in favor of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons. In this regard, the Movement welcomes the successful convening of two substantive sessions in 2016 and one substantive session in 2017 of the Open Ended Working Group on SSOD-IV chaired by Ecuador, which agreed on the objectives and agenda of the SSOD-IV.

52. The Movement underlines that the exercise of political will by all States is necessary to achieving concrete results. It is confident that with political courage and working together cooperatively, the First Committee can contribute tangibly to building a more secure world.

Thank you.
